

## HOW TO BECOME A FANTASTIC CREATURE?

**Halloween Fun Trail, from October 1 to 31, 2021  
On the Aerobic Corridor in Morin-Heights (50, chemin du Lac-Écho)**

### **Course Synopsis :**

Halloween is one of the most fun holidays for kids. For others, it is one of the most stressful times! For many years, several creatures have become emblematic figures of the fright festival. What everyone doesn't know is that every year, hundreds of animals and creatures apply to become a fantastic Halloween creature.

It is through this recruitment that black cats, bats and witches have been hired as Halloween representatives. For exactly 73 years now, the beaver has applied and been turned down every year on the grounds that he has a silky coat and a friendly face.

This year, he can't take it anymore!

So he's calling on you to help him pass the selection course and perhaps rise to the ranks of the creatures that cause nightmares. He's ready for anything. Do you have what it takes to help him?

### **Description :**

The course is composed of 6 stations of mini-games and puzzles under the theme of Halloween. The activity totals one hour of outdoor family fun, guided by our web application. To start the activity, participants simply scan the QR code on the first game poster located on the bulletin board at the Aerobic Corridor Welcome Pavilion (50 Lac-Echo Road).
